sold menthol tobacco

6 TIMES

as many stores sold tobacco than in any other county

2 in 5

offered little cigars for less than \$1.00

The Tobacco Industry spends \$110.5 million each year promoting tobacco products in Minnesota. That's about \$12,614 every hour.

Local action for effective tobacco prevention

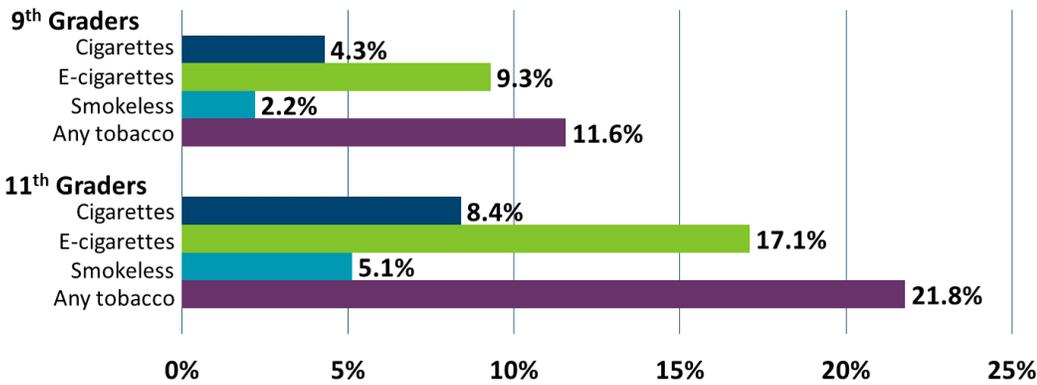

The Minnesota Department of Health supports community driven solutions to create tobacco-free environments and promote quitting.

Communities are working to:

- Reduce tobacco industry influence in retail stores.
- Increase the price of tobacco.
- Provide support and resources to Minnesota smokers who want to quit.
- Raise the minimum tobacco sales age to 21.
- Promote smoke-free environments.
- Engage diverse populations throughout Minnesota.

Youth tobacco use in Minnesota

Tobacco use among Minnesota's 9th and 11th grade students, 2016

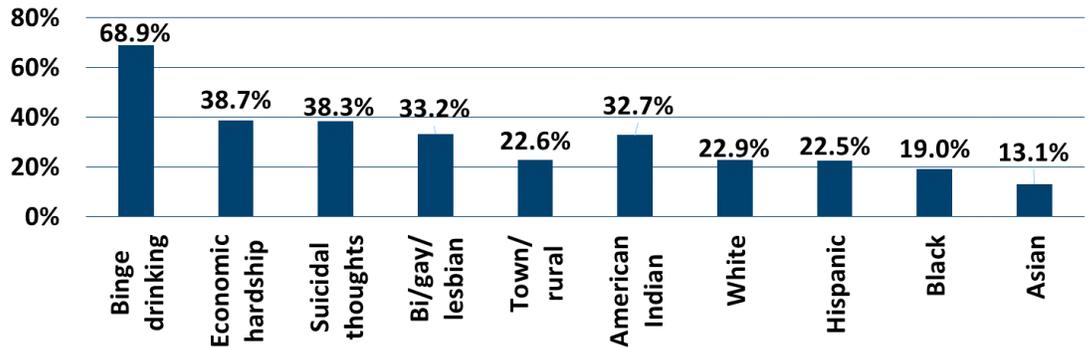

While the use of cigarettes, cigars, and smokeless tobacco have all declined, statewide youth e-cigarette use is now more than double cigarette use.

Statewide disparities in youth tobacco use

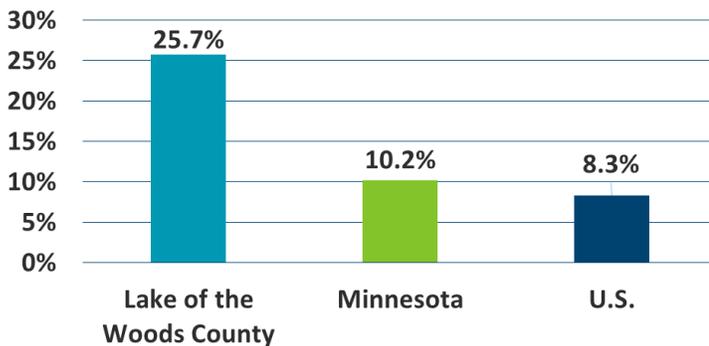

Despite declines in tobacco use overall, significant disparities remain among populations historically targeted by the Tobacco Industry. **Statewide, 21.8% of 11th graders use tobacco.**

Percent of Minnesota students who used any tobacco in past 30 days, Grade 11, 2016

Cigarette smoking during pregnancy

Percent of pregnant women who smoke, 2012-2015

Fetal exposure to nicotine can have long-term health consequences, including sudden infant death syndrome (SIDS), impaired fetal brain and lung development, hearing problems, effects on behaviors and obesity, and deficits in attention and cognition.
