

Keep this a safe space for our children

Take steps to help protect our children, staff, and communities from getting sick with COVID-19.

Get vaccinated if eligible. Get your booster shot when due.

Stay home if you feel sick or have been close to someone with COVID-19.

Wear a mask when recommended or required.

Get tested for COVID-19 if you feel sick, were close to someone with COVID-19, or participated in a high-risk activity.

Wash your hands often, especially after touching shared objects.

The more actions we all take, the safer our children and communities will be.

STAY SAFE MN
