## Home Care and Assisted Living Program Advisory Council Charter

*05-31-2017 9/10/18*

|                   |  |
|-------------------|--|
| <b>Background</b> | In 2013, the Minnesota Legislature enacted sweeping changes to the licensing of home care providers in Minnesota. While the licensing structure became simpler, the requirements to be a licensed home care provider are now stronger along with specific requirements for regulation and enforcement.   |
| <b>Purpose</b>    | By developing strong working relationships with members and through regular analysis of data leading to respectful discussions, we plan to create a model of licensed home care that respects providers and protects the people they serve.  |
| <b>Structure</b>  | <p>Some structure is mandated by statute and some decided by council members:</p> <ul style="list-style-type: none"> <li>• By statute: <ul style="list-style-type: none"> <li>○ Meets quarterly</li> <li>○ Meetings are open meetings as described in Chapter 13D</li> <li>○ Members may be compensated for authorized expenses</li> </ul> </li> <li>• By agreement: <ul style="list-style-type: none"> <li>○ Quarterly meetings are two hours long</li> <li>○ Ad hoc work groups meet as needed between quarterly meetings</li> <li>○ Meetings are in person, by phone or other electronic means</li> <li>○ Standards for what constitutes a day spent on council activities to make daily payments</li> <li>○ Members may be removed if they miss three consecutive meetings</li> </ul> </li> </ul>  |
| <b>Scope</b>      | Each member represents a type of home care stakeholder. In their Council work, members use their personal experience but also are aware about the group of stakeholders they represent. The Council provides information, guidance and recommendations to MDH about regulations for licensed home care providers.  |
| <b>Authority</b>  | <p>The Licensed Home Care Advisory Council is a recommending body. At the commissioner's request, the Council provides information, guidance and recommendations to MDH about regulations for licensed home care providers on topics that include:</p> <ul style="list-style-type: none"> <li>• Standards of practice</li> <li>• Appropriateness of certain disciplinary actions</li> <li>• Enforcement criteria</li> <li>• How to inform licensed providers and home care consumers</li> <li>• Training specifications</li> <li>• Recognizing trends and opportunities including technology and telehealth</li> <li>• Creating license modifications and exemptions</li> <li>• Recommendations for studies using data in section <a href="#">62U.04</a>, Subd. 4</li> <li>• <a href="#">Review balance in state government special revenue fund</a></li> <li>• <a href="#">Make annual recommendations to legislature by January 15</a></li> <li>• Other duties and topics as directed by the Commissioner</li> </ul> |
| <b>Boundaries</b> | <p>There are certain parameters that limit MDH's ability to change elements about, or related to, home care licensing and regulatory oversight. Some of them are:</p> <ul style="list-style-type: none"> <li>• Current state statutes and administrative rules related to the licensing, delivery or payment of home care services <ul style="list-style-type: none"> <li>○ Council may recommend revisions</li> </ul> </li> <li>• Available resources within MDH <ul style="list-style-type: none"> <li>○ Council may recommend how to allocate resources</li> </ul> </li> </ul>  |

|                          |  |
|--------------------------|--|
|                          | <ul style="list-style-type: none"> <li>• Competing priorities of the legislature and MDH leadership such as: <ul style="list-style-type: none"> <li>○ Council may recommend different priorities</li> </ul> </li> </ul>  |
| <b>Membership</b>        | <p>Representation of the Council is mandated by Minn. Statute 144A.4799 which describes an eight person council, appointed by the commissioner of health including:</p> <ul style="list-style-type: none"> <li>• Three public members who: <ul style="list-style-type: none"> <li>○ Are currently receiving home care services or</li> <li>○ Have family members receiving home care services or who have family members who received home care services within five years of their application date</li> </ul> </li> <li>• Three Minnesota licensed home care providers representing: <ul style="list-style-type: none"> <li>○ Basic and comprehensive licensure</li> <li>○ Managerial officials, administrators, supervising RNs or unlicensed personnel</li> </ul> </li> <li>• One member from the Minnesota Board of Nursing</li> <li>• One member representing the ombudsman for long-term care</li> </ul> <p>Minn. Stat <a href="#">144A.4799</a> refers us to use Minn. Stat. <a href="#">15.059</a> to organize and administer the council:</p> <ul style="list-style-type: none"> <li>• Four year terms beginning on first Monday in January</li> <li>• Half of members with election of governor and remainder one year later</li> <li>• Members may serve until successors are appointed and qualified</li> </ul>   |
| <b>Roles</b>             | <p><b>Members:</b> Prepare for and participate in scheduled meetings. Be a communication vehicle for the stakeholders they represent. Openly share their experiences with council members to help improve the efficiency and effectiveness of home care licensing and regulation. Alert the council about important trends. Recommend agenda items for meetings.</p> <p><b>MDH Key Staff:</b> Schedule, notify about, prepare for, facilitate and participate in meetings. Develop agendas based on council priorities, hot topics and current trends. Assist to locate subject matter experts if needed. Document key outcomes and next steps from meetings. Provide forms for members to request reimbursement of expenses and process the forms timely. (MDH key staff who must attend: Program Manager, at least one survey supervisor, at least one licensing specialist, at least one staff for administrative support.)</p> <p><b>Internal and External Subject Matter Experts (SMEs):</b> Provide adequate information on designated topics to allow Members to make informed recommendations.</p> <p><b>Guests:</b> May attend all council meetings and numbers will vary based on location and agenda topics. If Council Members approve, guests may provide input on agenda topics.</p> <p><b>Sponsors:</b> Provide authority and advice as needed. (Assistant Commissioner, Division Director, Assistant Division Directors)</p> |
| <b>Timeline</b>          | <p>The Licensed Home Care Advisory Council is an ongoing group. We will review the Charter annually at the start of the calendar year.</p>   |
| <b>Expected Outcomes</b> | <p>We expect the Council will:</p> <ul style="list-style-type: none"> <li>• Make thoughtful recommendations to achieve the best outcomes for licensed home care providers and the people they serve</li> <li>• Develop strong working relationships with council members and MDH staff that will foster innovative solutions to strengthen home care licensure and regulatory functions</li> <li>• Value the contributions of each council member and understand that we need to listen to each other and respectfully allow for the discussion of differences</li> <li>• Consider objective facts and available data when making recommendations</li> <li>• Be accountable to the people of Minnesota through open communication, transparency, timeliness and a desire for continuous quality improvement</li> </ul>   |

Dear HCALP Surveyors,

We are very pleased to inform you that the first batch of revised survey forms are available and **ready for you to pilot**. Many things have changed. We hope you find the changes support your work through the new organization of content and plain language wording.

### Project goals

- More efficient survey process
- Clear communication of license requirements
- Improved provider self-audit opportunities (resulting in more prepared providers)
- Improved new surveyor training
- Meet MDH branding and accessibility requirements
- Professional presentation of materials

### Changes include

- New organization of content
- Plain language (whenever possible)
- Purpose statements and/or instructions at the start of many documents to help providers and surveyors understand how to use the forms
- Active links to the statutes (if using the form on-line) and supporting url lists (if using a printed version of the document – in progress)
- Form numbering system for easy searching in the pool

### What surveyors should do now

- **Review** the forms
- **Start using** the new versions on your next survey
- **Ask questions** as needed
- **Provide feedback weekly** to Cindy. She will provide a feedback form for you to use.

### Find the new forms here

P:\\_Standards & Templates\New Survey Forms\_SURVEYOR PDFs\_2018

### What's next

The project team will continue its work on the remaining forms. As new forms become available we will communicate with the survey teams.

Over the next six weeks (September 1 – October 15) we will collect your feedback. Let us know what works, what doesn't work. Ideas/comments are actively sought and welcome.

At the end of the six-week feedback period we will make revisions and roll out the new forms, including for providers to use for self-audit purposes. The forms will be posted on the website and communications will be made with providers via govdelivery.com, Home Care Matters calls, advisory council meetings and through surveyor efforts on-site.

# Home Care Survey Introductory Letter

FOR BASIC AND COMPREHENSIVE LICENSEES

My name is \_\_\_\_\_, RN. I am a nurse with the Minnesota Department of Health (MDH). The purpose of my visit is to complete the licensing survey for your home care license and review the quality of care clients receive.

During the survey I will observe and interview staff, clients and client representatives (if applicable). I will also review records, including those for:

- Clients
- Employees
- Operational and/or administrative policies and procedures

I will need access to these records. You can provide the records electronically or on paper. We will discuss this at the beginning of the survey.

The information provided by your staff is a very important part of my evaluation. I want all staff to feel comfortable talking to me. Be sure to ask me any questions you may have. If I say something you don't understand, feel free to ask me to explain. I will explain the results of my visit after I am done with the observations, interviews, record reviews and home visits.

If you have any questions or comments about my visit, feel free to contact the Home Care and Assisted Living Program manager:

**Cathy Griffin**

**144A.43 Definitions**

**Subd. 2c. Dietary supplement.** "Dietary supplement" means a product taken by mouth that contains a dietary ingredient intended to supplement the diet. Dietary ingredients may include vitamins, minerals, herbs or other botanicals, amino acids, and substances such as enzymes, organ tissue, glandulars, or metabolites.

**Subd. 10. Medication.** "Medication" means a prescription or over-the-counter drug. For purposes of this chapter only, medication includes dietary supplements.

**Subd. 11. Medication administration.** "Medication administration" means performing a set of tasks to ensure a client takes medications, and includes the following:

- (1) checking the client's medication record;
- (2) preparing the medication as necessary;
- (3) administering the medication to the client;
- (4) documenting the administration or reason for not administering the medication; and
- (5) reporting to a nurse any concerns about the medication, the client, or the client's refusal to take the medication.

**Subd. 12. Medication management.** "Medication management" means the provision of any of the following medication-related services to a client:

- (1) performing medication setup;
- (2) administering medication;
- (3) storing and securing medications;
- (4) documenting medication activities;
- (5) verifying and monitoring effectiveness of systems to ensure safe handling and administration;
- (6) coordinating refills;
- (7) handling and implementing changes to prescriptions;
- (8) communicating with the pharmacy about the client's medications; and
- (9) coordinating and communicating with the prescriber.

**Subd. 16. Over-the-counter drug.** "Over-the-counter drug" means a drug that is not required by federal law to bear the symbol "Rx only."

**Subd. 35. Treatment or therapy.** "Treatment" or "therapy" means the provision of care, other than medications, ordered or prescribed by a licensed health professional provided to a client to cure, rehabilitate, or ease symptoms.

## Clinical Laboratory Improvement Amendment Information

### Overview of Requirements

The Clinical Laboratory Improvement Amendment (CLIA), a federal government program, requires a CLIA certificate when providers conduct any tests, including waived tests, on materials taken from the human body (saliva, serum, blood, urine, tissues, etc.) to provide health information for the diagnosis, prevention, or treatment of disease or impairment, or assessment of a person's health. The type of CLIA certificate required depends upon the level of complexity of the tests.

### Application Process

Complete the application and email or mail it to the Minnesota Department of Health. Approximately two weeks after the application is processed, an invoice for \$150 will be mailed to the provider/laboratory. The certificate will be mailed after payment is received and posted by CLIA. **Do not send payment with the application.**

#### [CLIA Application for Certification](#)

Certificates must be renewed every two years. Providers must update the CLIA Program at the Minnesota Department of Health when there are changes (such as the named laboratory director).

### Certificates of Waiver

Some providers conducting tests will need a certificate of waiver. Examples of waived tests include blood glucose, fecal occult blood, streptococcus, influenza, mononucleosis, urine pregnancy, cholesterol tests and INR. Providers should review the information on the [CLIA website](#) to determine the level of certificate, if any, that is required for their agency.

# Client Observation and Record Review

COMPREHENSIVE HOME CARE PROVIDER

## Purpose

The *Client Observation and Record Review* is used by Minnesota Department of Health (MDH) surveyors to document evidence of:

- Observations of client care and services;
- Medication management services;
- Treatment and therapy services;
- All nursing assessments; and
- Client and/or family interviews (utilizing the *Home Visit Client/Family Interview*).

Providers may use this document to self-audit. Statute references (with links to the Revisor's website) occur throughout (e.g., [144A.4792, Subd. 1](#)). Click on the link and scroll to the noted subdivision for information about the requirements.

## CLIENT OBSERVATION AND RECORD REVIEW

Observations of staff and client services are made throughout the survey. Interviews of staff and clients are conducted to evaluate and validate surveyor observations and findings. Areas reviewed include but are not limited to:

- Staff knowledge and implementation of the client's service plan and the client's individualized vulnerable adult or minor abuse prevention plan.
- Client is free from physical and verbal abuse.
- Client with care needs including but not limited to: durable medical equipment, tube feedings, pressure ulcers, blood glucose checks, insulin, oxygen, dialysis, hospice care and falls.
- Care and services are provided in accordance with accepted medical and nursing standards.
- Current standards of practice for infection control are followed, including but not limited to appropriate hand hygiene, handling and transporting linen to prevent spread of infection and the use of protective gloves when appropriate.
- Client is treated with courtesy and respect and client's rights are not violated.
- Staff listens and is responsive to client requests. (Note staff interaction with both communicative and non-communicative clients.)
- Medication administration and/or assistance with self-administration of medications.
- Client appears clean and neat.
- Client is free from physical and/or chemical restraints.
- Other observations/interviews as deemed necessary (e.g., behaviors).

## Client Record Review

Client records are reviewed to determine if documentation standards are met related to evaluation and assessments and the services the client is receiving.

- Individual abuse prevention plan is current and includes:
  - An individualized assessment of client's susceptibility to abuse by other individuals;
  - Assessment of the client's risk of abusing other vulnerable adults or minors; and
  - Statements of the specific measures to be taken to minimize the risk of abuse to the client and other vulnerable adults or minors.

- All services are provided and documented (ADLs, IADLs, medications and treatments) as noted in the client's service plan. ([144A.4791, Subd. 9 \(c\)](#) and [144A.4794, Subd. 3](#))

## CLIENT OBSERVATION AND RECORD REVIEW

- Client-specific written instructions are present for delegated nursing procedures. ([144A.4792, Subd. 7](#); and [144A.4793, Subd. 4](#)) Date: \_\_\_\_\_
- Documentation of client's receipt (date and signature) and review of:
  - Minnesota home care bill of rights \_\_\_\_\_ ([144A.479, Subd. 1](#))
  - Statement of home care services \_\_\_\_\_ ([144A.479, Subd. 3](#))
- Written complaint notice \_\_\_\_\_ ([144A.4791, Subd. 11 \(a\) \(b\) \(c\)](#))
- Documentation of complaints received and resolution, if applicable.
- Client records are kept confidential and are secure. ([144A.4794 Subd. 1 \(b\)](#))
- Entries in the client's record are current, authenticated and legible. ([144A.4794 Subd. 1 \(a\)](#))
- Significant changes or incident(s) and the actions taken in response are documented, (e.g. client falls, post-hospital, ER visits, any client deterioration) ([144A.4791, Subd. 8 \(c\)](#))

## Medication Management

([144A.4792](#))

Surveyors review client's record for compliance related to medication administration including all dietary supplements ([Subd. 2 \(c\)](#)), over-the-counter ([Subd. 16](#)) and prescribed medications ([Subd. 22](#) and [151.01 Subd. 16 \(a\)](#)) taken by the client.  Registered nurse developed and implemented an individual medication management plan prior to provision of services. Medication plan is current and updated with any changes.

Assessment date: \_\_\_\_\_ ([Subd. 2](#))

- Medication orders are renewed at least every twelve months. ([Subd. 3](#))
- Individual medication management plan included descriptions of:
  - Medication management services provided by nurse and ULP (included PRN).
  - Type of medication storage system, based on client needs.
  - Specific written instructions for client's medication administration.
  - Person responsible for monitoring medication supplies and refills.
  - Medication management tasks that may be delegated to ULPs.
  - Procedures for staff to notify an RN when problems arose.
  - Any client-specific requirements (e.g., parameters: blood sugar, blood pressure, pulse, etc.)

Individual medication management plan date: \_\_\_\_\_ ([Subd. 5](#))

- If delegated, employee record shows RN instructed ULP in proper methods, ULP demonstrated competency and instructions are written and specific to client. (Includes PRN medications) ([Subd. 7](#))
- Medication administration records are complete; medications are administered as ordered and documented correctly, or reason not administered is documented. (Includes PRN effectiveness) ([Subd. 8](#))
- Medication set-up and administration is documented. ([Subd. 9](#))

## CLIENT OBSERVATION AND RECORD REVIEW

- Documentation of medication administration was completed for client who was away from home. ([Subd. 10 \(a\) \(b\)](#))
- Prescriber's orders are written and dated for medications administered and orders are complete. ([Subd. 13](#))
- Verbal orders are received only by a nurse or pharmacist, are entered into the client record and recorded and forwarded for signature. ([Subd. 15](#))
- Electronically transmitted orders are recorded, communicated to the registered nurse and placed in client record. ([Subd. 16](#))

## Treatment and Therapy Management Services

([144A.4793, Subd. 1-6](#))

Client's record (including the service plan and treatment administration records) is reviewed for all prescribed treatments and therapies administered by the provider's employee(s).

Examples of treatments and therapies include but are not limited to CPAP, O2, pulse oximetry, blood glucose checks, tube feedings, TED hose, splints, P.T./O.T. exercises, and wound care. Surveyors will also review maintenance procedures for equipment used in treatments and therapies.

### Individual treatment and therapy management plan

- RN or appropriate licensed health professional developed treatment plan (before services were provided). Date: \_\_\_\_\_
- Plan is current and updated with any changes. Date: \_\_\_\_\_  
Plan includes the following items:
  - Written client instructions for each treatment or therapy.
  - A list of the treatment or therapy tasks delegated to ULPs.
  - Procedures to notify an RN or other licensed professional when there are problems with treatments or therapies.
  - Documentation of all treatments or therapies administered, or reason not administered.
  - Verified as administered and monitored by RN to prevent complications or adverse reactions.
- Prescriber's orders are written, complete and dated for treatments or therapies administered.
- Service plan includes a written statement of treatments and therapies provided.

## Observation Findings

*During observation of medication administration, did you identify problems such as:*

- Incorrect medication administered to client;
- Incorrect medication dose administered to client;
- Medication administered without a prescriber's order;
- Medication not administered as ordered before, after, or with food/antacids;
- Medications administered without adequate fluid as manufacturer specified, such as laxatives;
- Failed to check pulse and/or blood pressure prior to administering medications when ordered;
- Medication administered after date of expiration on label;
- Medication administered to client via wrong route;
- Prior to medication administration gastrostomy tube placement not checked;
- Gastrostomy tube not flushed with required amount of water before and after medication administration as prescribed;
- Improper technique used for intravenous/intramuscular/subcutaneous injections;
- Insulin suspensions: Failed to "mix" the suspension without creating air bubbles;
- Failed to "shake" a drug product that is labeled "shake well."
- IM/SQ injection sites not rotated;
- Transdermal patch sites not rotated;
- Inhaler medication not administered according to prescriber's orders/manufacturer's guidelines;
- Multiple eye drops administered without adequate time sequence between drops;
- Staff did not observe the complete medication administration.
- Other (describe): \_\_\_\_\_

1. Was the observed medication preparation or administration in accordance with the prescriber's orders, accepted professional standards, and/or manufacturer's specifications?  Yes  No

## Drug Storage and Labeling

- System is in place, with written policies and procedures, that addresses requesting and receiving prescriptions, preparing and giving medications, verifying medications are administered as prescribed, documenting medication management, control of medications, storing of medications, monitoring medication use, resolving medication errors, communicating with the prescriber, pharmacist or client, educating clients about medications and disposition of medications.
- Drugs and biologicals are stored in locked compartments under proper temperature controls and permit only authorized staff to have access to keys. Documentation of refrigerator temperature logs are maintained.
- When controlled substances are being managed, there are policies and procedures that identify how the provider will ensure security and accountability for the overall management, control and disposition of these substances. Over the counter drugs that are retained in general stock supply are kept in the original labeled container.
- Prescription drugs are kept in their original containers bearing a prescription label and not used or saved for the use of another client.

2. Are all drugs and biologicals stored and labeled properly?  Yes  No

# Exit Conference

## GUIDELINES FOR SURVEYORS

### Protocols

- 1) Have all personnel (MDH and provider) sign the *Exit Conference Attendance Form*.
- 2) Introduce team members.
- 3) Thank staff for courtesies extended (i.e. coffee, assistance, copies, etc.).
- 4) State: "This has been a survey from (date) \_\_\_\_\_ to (date) \_\_\_\_\_. During the course of the survey, we have gathered information related to your clients and the care they are receiving, medications, treatments and personnel training and competency."

### Review the following with provider

- 1) Explain the preliminary findings, including statute numbers.
- 2) Inform that:
  - a. You will leave them with a draft of the preliminary findings.
  - b. The findings may change after supervisory review.
  - c. The provider can submit additional information, if they wish.
  - d. When survey results (2567) are received, the required date of correction will be indicated by each order.
  - e. A revisit can occur at any time following the required date of correction.
  - f. If this is a revisit, there is no correction time period, unless there are new orders. They will receive a 2567 if they have orders and the 2567B if they have corrected some or all orders.
  - g. Surveys are emailed within 30 days to the authorized agent on file.
- 3) Remind the agent to notify us of any changes and to check both the inbox and junk mail folders to ensure receipt of survey documents.
- 4) Invite provider, again, to submit additional information.

### Leave with provider

- *Draft of Preliminary Findings (including client identifiers)*
- *Process for Requesting a Reconsideration*
- *Resources for Home Care Providers (which includes the MDH TB guidelines document)*

# Correction Order Documentation Guidelines

BASIC AND COMPREHENSIVE LICENSED HOME CARE PROVIDERS

## Minnesota Home Care Statute Reference

### **144A.474 SURVEYS AND INVESTIGATIONS, Subd. 8. Correction Orders**

(c) By the correction order date, the home care provider must document in the provider's records any action taken to comply with the correction order. The commissioner may request a copy of this documentation and the home care provider's action to respond to the correction order in future surveys, upon a complaint investigation, and as otherwise needed.

## Documentation Guidelines

Licensed home care providers must take action to correct violations found at survey. The correction order documentation should include the following:

- a. Identify how the area(s) of noncompliance was corrected related to the client(s)/employee(s) identified in the correction order.
- b. Identify how the area(s) of noncompliance was corrected for all of the provider's clients/employees that may be affected by the noncompliance.
- c. Identify what changes to your systems and practices were made to ensure compliance with the specific statute(s).

The provider is not required to send correction order documentation to the Minnesota Department of Health, however the provider must document in the provider's records any actions taken to comply with the correction orders and must make these records available upon request by the commissioner.

# Process for Requesting a Reconsideration

FOR LICENSED HOME CARE PROVIDERS

## Statute

[144A.474, Subdivision 12](#)

## Overview

Following a home care license survey, licensed home care providers may challenge the correction order(s) and request that the Minnesota Department of Health (MDH) reconsider its findings. Providers may challenge the level and/or the scope and any fine assessed. During the review, the correction orders are not stayed, but MDH will post information on its website that the licensee has requested a reconsideration and that a review is pending.

## Process

- Correction orders are emailed to the agent on record.
- The request for reconsideration (with supporting documentation) must be received by MDH within 15 calendar days of the correction order receipt date. The receipt date is the date the orders are emailed to the provider.
- The request must include a list of the order(s) being challenged and the reasons the provider disagrees with MDH's findings.
- The reconsideration may be conducted in person, by phone, by electronic form, or in writing.
- MDH will respond in writing to the provider within 60 days of the request.
- The response will identify MDH's decision regarding each citation challenged by the provider.

## Additional information

- The reconsideration will be reviewed by someone other than the surveyor, investigator or supervisor that participated in issuing the order.
- If the findings are changed by MDH, the website will be updated to reflect the change.
- The correction order reconsideration process does not apply to temporary licensees.
